SKILLS

- **Languages:** C++, JavaScript
- **Frontend:** React.js, HTML, CSS, Bootstrap
- **Backend:** Node.js, Express.js
- **Database:** MongoDB
- **Tools:** Git, GitHub, Figma, Vercel, Render
- **Core Concepts:** Data Structures & Algorithms, OOP, OS, Computer Networks

PROJECTS

Recruitment Portal | Github | Live Jan' 26 - Mar' 26

- Engineered a scalable **full-stack MERN recruitment platform** enabling seamless interaction between job seekers and recruiters through role-based access.
- Implemented **secure authentication & authorization (JWT-based)** ensuring protected user sessions and data integrity.
- Designed and developed **core features** including job posting, advanced job search, and one-click application workflows.
- Built and integrated **RESTful APIs** to efficiently manage users, job listings, and applications.
- Architected a **robust MongoDB database schema** to optimize data storage and retrieval performance.
- Handled 100+ user interactions during testing phase.

Tech Stack: HTML, CSS, JavaScript, Node.js, Express.js, MongoDB

E-Commerce Platform | Github | Live Apr' 25 – Jun' 25

- Developed a scalable **full-stack MERN e-commerce application** with product browsing, secure user authentication, and cart management.
- Created **modular backend APIs** for authentication, product catalog management, and order processing using Node.js & Express.
- Achieved **seamless frontend-backend integration**, ensuring smooth user experience and real-time data flow.
- Deployed application using **Vercel (frontend)** and **Render (backend)**, demonstrating production-level deployment skills.
- Utilized **MongoDB** for efficient data handling and solved real-world challenges related to API integration and deployment.

Tech Stack: HTML, CSS, JavaScript, Node.js, Express.js, MongoDB, Bootstrap, Vercel, Render

RELEVANT COURSEWORK

DSA in C++ – CSE Pathshala Jun' 25 – Jul' 25

- Applied C++ fundamentals including functions and problem-solving techniques to solve DSA problems.
- Practiced object-oriented programming concepts like classes, objects, inheritance, and polymorphism.
- Solved DSA problems using arrays, strings, stacks, queues, and linked lists.
- Improved logical thinking and problem-solving skills through regular coding practice.
- Gained understanding of basic development practices and structured coding approaches.

Tech Stack: C++, Data Structures & Algorithms (DSA), Object-Oriented Programming (OOP)

CERTIFICATES

- Java Programming - IamNeo | [Link](#) May' 25
- Cloud Computing - IIT Kharagpur (Nptel) | [Link](#) Apr' 25
- Deloitte Virtual Internship - Forage | [Link](#) May' 26
- Build a Thon Hackathon - Board Infinity | [Link](#) Apr' 24

ACHIEVEMENTS

- Solved 150+ problems on LeetCode and GeeksforGeeks. Nov'25
- Strengthened problem-solving and data structure skills through consistent practice. Aug'25
- Participated in coding contests demonstrating strong analytical and problem-solving skills. Jan'25

EDUCATION

Lovely Professional University Phagwara, Punjab
Bachelor of Technology - Computer Science and Engineering; CGPA: 6.66 Aug' 23 - Present

AVMD Institute Firozabad, Uttar Pradesh
Intermediate; Percentage: 70.2% Jun' 21 – Apr' 22

SMPKD English Medium School Firozabad, Uttar Pradesh
Matriculation; Jun' 19 - Apr' 20
